

Masaar

Launched in January 2021, Masaar is an upscale forested community that sets a new standard for community living across the UAE.

The most distinctive feature of Masaar is the green spine, which connects each of the seven gated districts to the community hub, and which contains more than 50,000 trees.

Designed to provide an active, healthy lifestyle, in a green and leafy environment where residents spend more time outdoors than indoors, Masaar is the UAE's first 'post-pandemic' master-planned community.

Construction on Masaar has already begun, and the first homes are scheduled to be handed over in 2023.
